About Us

Can industrial is one of Canada's leading fencing supplier and has been serving clients throughout North America for last 10 years. We have warehouses located in British Columbia, Alberta, Nebraska and New York. We have a team of professional sales staff that is always available to find the right solution for your fencing need.

Can Industrial expertise is in commercial, temporary, industrial, construction, highway, high security, and high visibility applications. Our fencing solutions include all kinds of establishments including, business owners, large-scale commercial and industrial projects, government institutions, community facilities, recreation and sports facilities, farms and acreages.

Our commitment is to deliver the best products, using the best methods, in a timely manner at an affordable price. We guarantee the products, material and labour on every job we do.

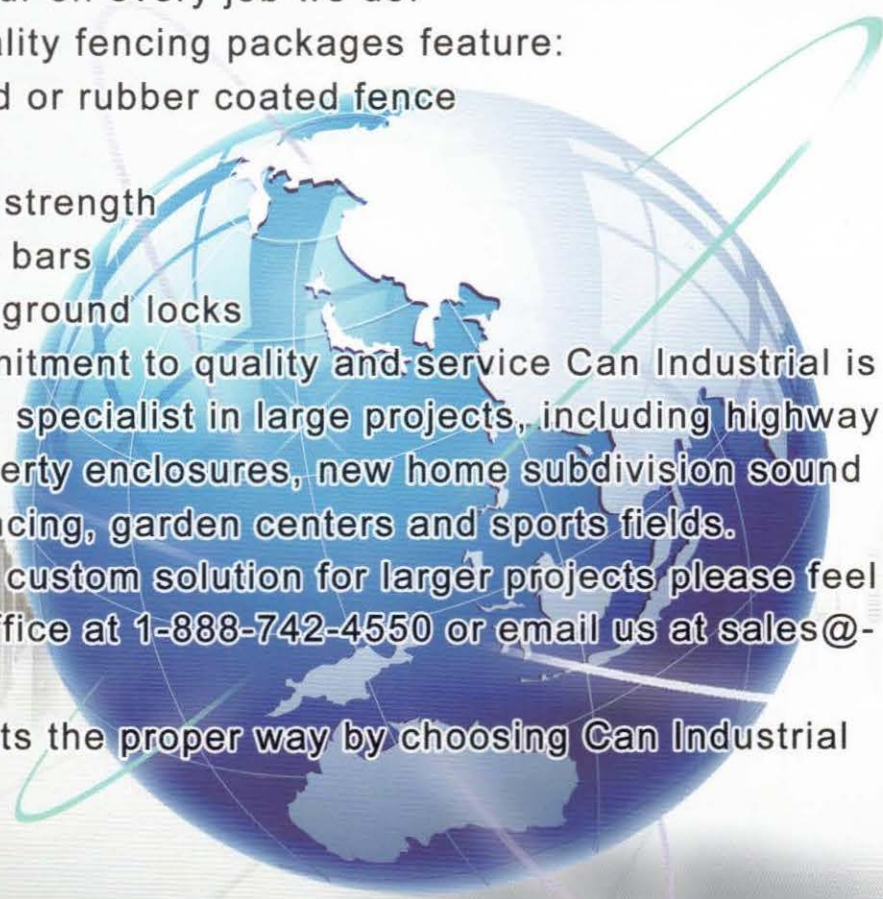

Can Industrial high quality fencing packages feature:

- Hot dipped galvanized or rubber coated fence
- High-visibility fence
- Inner welds for extra strength
- Middle reinforcement bars
- All panels with top & ground locks

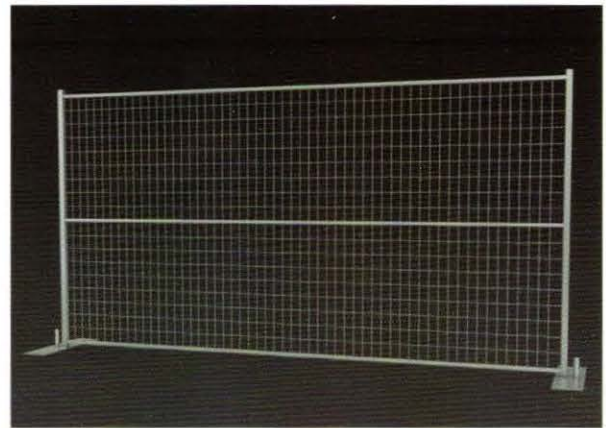

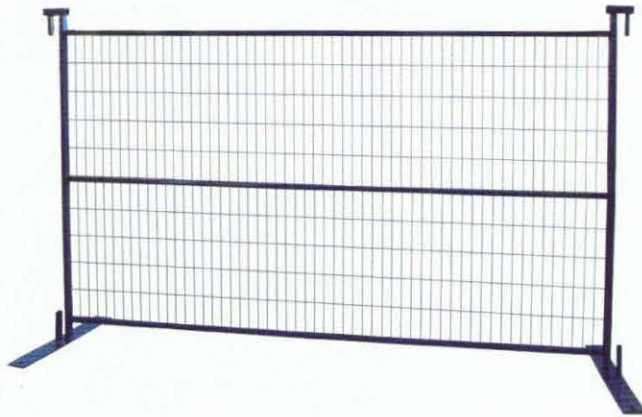

As a result of our commitment to quality and service Can Industrial is now recognized as the specialist in large projects, including highway fencing, industrial property enclosures, new home subdivision sound barrier or chain link fencing, garden centers and sports fields.

If you are looking for a custom solution for larger projects please feel free to call our sales office at 1-888-742-4550 or email us at sales@canindustrial.com

Protect your investments the proper way by choosing Can Industrial Fence Solutions.
